Watching the Animated Graphing Calculator Videos

Before you begin watching the videos make sure that your sound is turned on. You can check this in the system tray of your operating system, which should be located in the lower right corner of your screen where the time is displayed. This indicates that the sound is on. This indicates the sound is off.

Then select a topic from the menu on the left with your mouse and the video will begin to load and will soon start.

To control the video, use the control panel shown below. The next video will automatically start or you can press the stop button until you are ready for the next video. Remember that you can always use the pause button and then the timeline slide bar to rewind anything you want to replay or fast-forward anything you want to skip.

Play: ....................  Restarts the video after pausing or stopping.
